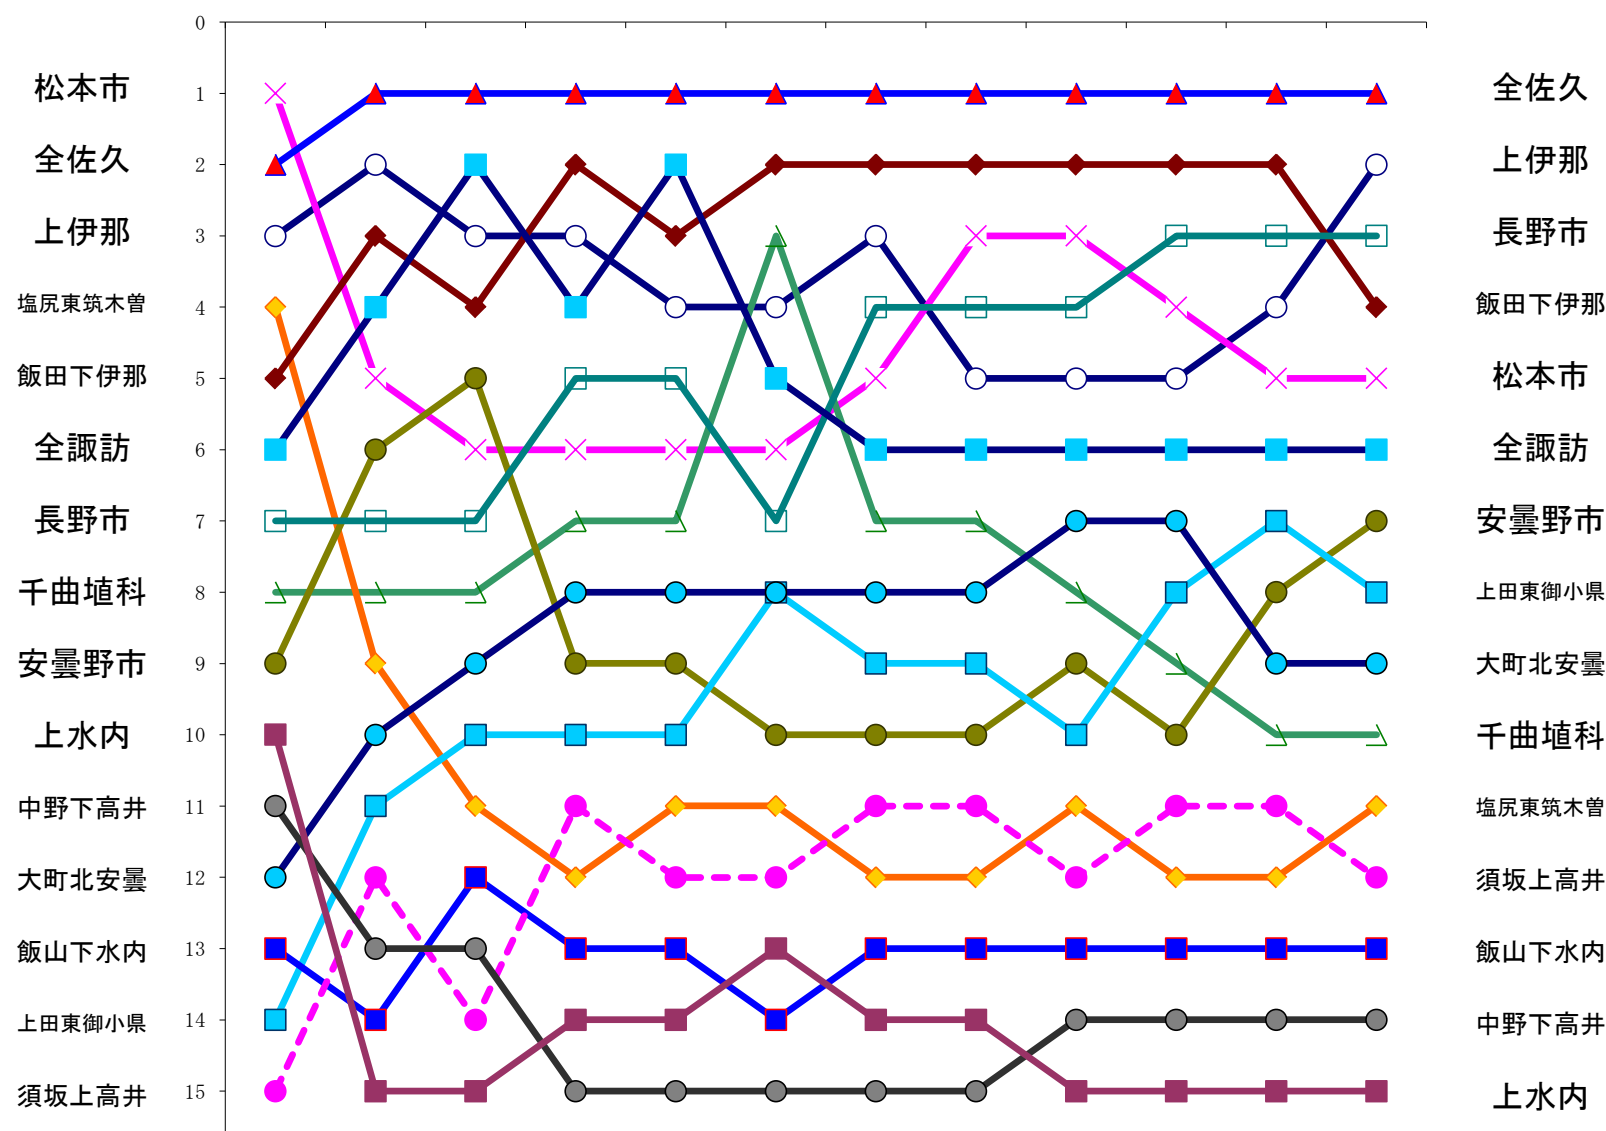

Figure 1 is a line graph illustrating the change in the number of individuals in each of the 16 categories (13区 to 21区) from 1990 to 2010. The Y-axis represents the number of individuals (0 to 15), and the X-axis represents the year (1990 to 2010). The graph shows that the number of individuals in most categories remained relatively stable over time, with some fluctuations. Notable changes include a decrease in the number of individuals in category 13区 (from 1 to 0) and an increase in category 21区 (from 0 to 1).
